radical to way to stay the progress of Devil.

You probably saw a Resolution, or declaration of the meeting of these Lawless people in Concord, N Hampshire, that children have as good right to govern their parents as parents to the children. When such sentiments exist, I hope to see them out before the publick. The faster people run, the sooner their race will be over. — One more question:— When will your defence of the Sabbath be out of the Press?

I am now in my study & wish to finish my letter before I go down, & I will venture to say, that Mrs Fisk, Emily, William send their love to you, Mrs Phelps & Edward. Both Emily and Margaret are & have been quite unwell for some two or three weeks. Unable some days to do any thing. The difficulty with Emily is her lungs, and with Margaret a disordered stomach.

Please to write as soon as convenient.

An affectionate remembrance of me to your wife & Edward.

Yours affectionately,

E Fisk

As they were met before & as I hear from all quarters, came off second best they must be met again & I hope they will again be defeated. The ministers seem to me to be now called upon to stand in their lot & in self defence & to bring forth their strong reasons & they have strong ones. If they can repulse the assailants a second time, they may be held some what in check. Is there truth in the Report that non resistants, Transcendentalists &c &c are about to collect & live together in Roxbury, Mendon & Worcester? I am much in favor of the measure. It will relieve those among whom they now dwell & be the
